PUT TO THE TEST

Allview Mirrors

If you have trouble turning your head to check blind spots while driving, you will appreciate this mirror system. The design makes lane changes safer and easier because you can see the entire rear field of view all at the same time. And NASCAR fans will appreciate the system because it is the same technology that the drivers use in Winston Cup and other series racing. It mounts on the windshield right in front of the driver and clearly shows the vehicle's location in reference to the other cars and trucks on the road. And it is aspheric, as opposed to convex, so the view is not distorted. Shatterproof and vibration free, it is easy to install. It is available in two sizes that either fit over your existing rear-view mirror, or mount to your windshield and come with a sun visor. The suggested retail price is \$49.95, plus \$6.95 shipping and handling. Herschel Hennen, a Good Sam member from Hazelwood, Mo., says, "I believe it is a great product and would recommend it to anyone who wants total seeability." ALLVIEW Mirrors Corp., Box 92078, City of Industry, CA 91715; 866-200-8740; 626-968-3798; www.allviewmirror.com.

Byer's Super Snap

This specially designed snap is used to repair or make tarps or to add additional grommets on tarps or clothing. Simply place the disk underneath the tarp, start one side of the loop on the disk in the groove, and then push the loop completely on. The snap disk may be permanently secured to an object by the use of nails or screws or may also be mounted semipermanently. When hanging up light objects such as clothing, the hook may be used instead of running a line through the larger hole. Available at Home Depot stores, the suggested retail price is \$1.97 for a package of two. **Donald Baltulonis**, a Good Sam member from E. Windsor, Conn., thought the product was rated "good, to hold down a tarp on the motorhome." The Creative Sales & Mfg. Co., Box 550, Whitefish, MT 59937; 866-869-8115.

Traveler Golf Cart

E-Z Golf Cart has provided sturdy, durable pull carts to golf courses and pro shops for nearly 50 years, and now these sturdy carts are available to the individual golfer. RVing golfers will appreciate the fact that, unlike other golf carts, these fold flat and disassemble easily. In addition, there are no plastic structural parts; they are very rugged because they are made of 18-gauge steel tubing and solidly welded. The Traveler model is a full-sized cart that weighs only 11 pounds and folds flat into a 24-inch-by-12inch space. It has adjustable-width axles, detachable handle, 12-inch removable wheels with steel ball bearings and carries any size bag without bag straps. The suggested retail price is \$76 with standard wheels, plus \$9 shipping and handling, and all models come with a three-year warranty. E-Z Golf Cart, 15373 Roosevelt, #201, Clearwater, FL 33760; 800-831-2530; www.e-zgolf.com.
